

# BoitAvot'

*Exercer sa citoyenneté dès l'école maternelle*

PhoneGap

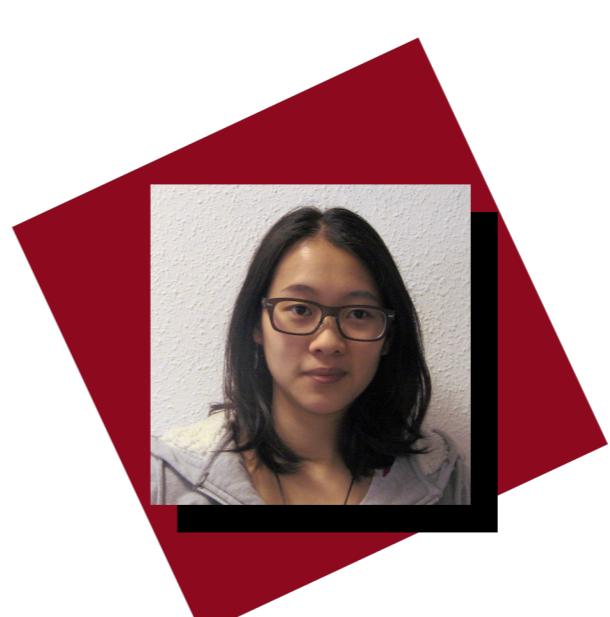

The infographic illustrates the BoitAvot' application's features across four main stages:

- Gérer les votants** (Manage voters): Three screens show the addition and modification of classes, and a summary of 17 voters.
- Définir les sujets de vote** (Define voting subjects): Two screens allow for setting the number of subjects (2 to 6) and selecting their titles.
- Voter pour le sujet de son choix** (Vote for the subject of your choice): A screen shows a 3x3 grid of colored squares representing votes.
- Analyser les résultats** (Analyze results): Four screens display various charts and graphs showing the distribution of votes across different subjects.
